OHIO MAN IS A MODERN WIZARD

CORNS STOP HURTING THEN LIFT OFF WITH FINGERS.

Drop of magic! Doesn't hurt one bit! Apply a little Freezone on that touchy corn, instantly that corn stops hurting, then you lift it off with the fingers. No pain at all! Try it!

Why wait? Your druggist sells a tiny bottle of Freezone for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and callouses, without soreness or irritation. Freezone is the much talked of ether discovery of the Cincinnati genius.—Adv.

Brave Act Recognized.

The navy department has commended Matthew McCabe, a water tender, for gallantry and heroism in jumping overboard from the United States steamship Pocahontas and rescuing from drowning a fireman who had either jumped or fallen overboard. When the man was seen to disappear from the ship McCabe, without hesitation, jumped into the water and succeeded in getting a line around the man, who was hauled up on deck. McCabe enlisted in the navy August, 1916, at New York.

Sore Eyes, Blood-Shot Eyes, Watery Eyes, Sticky Eyes, all healed promptly with night applications of Roman Eye Balsam. Adv.

To Use Bags of Banana Fiber.

Sugar planters in the Hawaiian Islands are facing a shortage of bags used as containers for raw sugar. These bags have been imported from Calcutta. Recently machinery was sent to Honolulu from the state of Washington for the purpose of manufacturing the bags from fiber of banana tree trunks.—Popular Science Monthly.

The Reason.

"An aviator can't get stuck on his family."
"Why not?"
"Because in his profession there is nothing to boast about in a descent."

Temperance Notes

(Conducted by the National Woman's Christian Temperance Union.)

A GOOD ARGUMENT FOR NATIONAL PROHIBITION.

Mr. Nathan W. Littlefield, head of the Rhode Island Anti-Saloon League, presents a forceful reason for nationwide prohibition. "If all the inhabitants of all the states never went abroad, but remained within their respective boundaries," he says, "there might be a little force in the argument that the people of any state who desire free rum should be left to stew in their own folly and degradation."

"But the American people travel for business and pleasure from one end of the country to the other. Why should a citizen of Denver, who sends his family to Palm Beach or Narragansett Pier lose the protection of the just laws of his own state which shield his sons and daughters from the perils of the saloon, the wine table and the gilded gambling hall?"

"The most powerful and effective argument advanced in the congressional debates which preceded the adoption of the District of Columbia bill and the rejection of the amendment to submit the question to the people of the district, was that the district belongs to the people of the whole country; that it is inhabited by persons from all parts of the country; and therefore the question of prohibition for the district is not a local, but a national question."

"The argument is quite as applicable to New York, Chicago, Philadelphia and Boston and the two or three other great cities of the country as it is to Washington. Nine-tenths of all the saloons of the country are located in these cities. All the wet territory of the country could be put into the state of Texas with plenty of room to spare. But the influence and power of those cities for good or evil pervades the whole country."

MODERATE DRINKING IMPAIRS ABILITY TO DISTINGUISH COLORS.

"New experiments on the effect of alcohol upon vision by Dr. Hugo Schultz of the pharmacological institute in the University of Griefswald, were recently reported in L'Abstinence," says Emma L. Frausman in the American Issue. "The ability of men to distinguish between red and green after taking alcohol and caffeine, was tested upon seven persons. Control experiments were of course made upon other subjects who had taken neither alcohol nor caffeine."

"The alcohol experiments were made with light beer, with Rhine wine containing little alcohol, and with brandy and champagne. The quantities used were: 250 cc. of beer, 100 of wine, 100 of champagne, 20 of brandy. The quantity of alcohol taken in each experiment was therefore a little less than 10 cc. In most cases the absorption of the alcoholic liquor caused a clearly appreciable diminution of the ability to distinguish red and green. This diminution was stronger for red than for green."

"Beer produces the most noticeable effects. The bitterness of the hops contained in the beer was thought to contribute to this."

"The influence of caffeine is totally different. After taking coffee the ability to distinguish light red and deep red, light green and deep green was clearly strengthened."

"The experiments show clearly how even the moderate use of alcoholic liquors may be dangerous for occupations in which it is very important to clearly distinguish colors."

ATTENTION, WORKERS!

The land is not supporting too many, but the people who work are doing so. For, be it understood, the men who manufacture and distribute liquor do not "work," they merely waste labor. The criminal who, having drowned his higher aspirations in whisky, preys upon society, does not work; he lives upon the work of others. The insane, the impoverished, the delinquent and degenerate of many classes—these, the victims of a demoralized traffic, do not work. Since this is true, their neglect to toil at that which produces what they consume must be supplied by redoubled toil upon your part.—From Cyclopaedia of Temperance.

A GOOD RETORT.

A saloonkeeper said to a barber, after being shaved: "Yours is a very easy way of making money." The barber replied: "A man can come into my shop and for a very small sum make a considerable improvement in his appearance; but if a man goes into your house he may spend a large sum and be worse in appearance when he comes out than when he went in; in fact, the more he spends the less fit he is to be seen."

Dr. Arthur Hunter, president of the American Society of Actuaries, speaking for life insurance men says: "Taking the mortality risk of the entire group of insured persons as represented by 100, the probability of death in the case of total abstainers is 75, of moderate drinkers 115 and of excessive drinkers, 185."

I am firmly convinced that a national prohibition measure would be of transcendent importance.—Frank A. Vanderlip, President National City Bank, New York.

Flagler's Florida Railroad.
There is no railroad from Key West to Cuba, and could not well be, as nearly 200 miles of ocean intervene. What Mr. Flagler did was to build a railroad along the eastern coast of Florida to its southern extremity, and thence on piles and artificial viaducts to Key West, and to provide for the transportation of loaded trains both ways between Key West and Cuba by huge ocean ferry boats constructed and equipped specially for the service. There are no figures at hand as to the cost of the work done by Mr. Flagler. It has been of great commercial value.

Flighty.
W. F. Cleary, clerk of the board of public works, is the recipient of many complaints and interrogations. The prize question, he says, was asked him recently when a man came into his office, on the first floor of the city hall building, and asked him where the second floor was.—Indianapolis News.

Horrible Example.
"Every time I touch a beefsteak or a loaf of bread it turns to gold," exclaimed Midas.

"And yet you are scared and uncomfortable."

"Very much so. My experience proves the fallacy of being a profiteer."

POWDER IN SHOES AS WELL AS GUNS

Foot-Ease to Be Added to Equipment of Hospital Corps at Port Wayne.

Under the above heading the Detroit Free Press, among other things says: "The theory is that soldiers whose feet are in good condition can walk further and faster than soldiers who have corns and bunions incased in rawhide."

The Plattsburg Camp Manual advises men in training to shake Foot-Ease in their shoes each morning.

One war relief committee reports, of all the things sent out in their Comfort Bags or "Kits," Allen's Foot-Ease received the most praise from the soldiers and men of the navy. It is used by American, French and British troops, because it takes the friction from the shoe and freshens the feet. There is no foot comforter equal to Allen's Foot-Ease, the antiseptic, healing powder to be shaken into the shoes and sprinkled in the foot-bath, the standard remedy for over 25 years for hot, tired, aching, perspiring, smarting, swollen, tender feet, corns, bunions, blisters or calluses.

Why not order a dozen or more 25c boxes to-day from your Druggist or Dept. store to mail to your friends in training camps and in the army and navy.

Precautionary Measure.

Mrs. Flatbush—Will you tack down that carpet for me, dear, before you go out to play golf?

Mr. Flatbush—No, I guess I'll go and have my game of golf first.

"Why not lay the carpet before you go, dear?"

"Because I can smash my thumb after I've had my golf, but if I smash my thumb before playing I'm afraid it would put me off my game, love."

Constipation generally indicates disordered stomach, liver and bowels. Wright's Indian Vegetable Pills restore regularity without gripping. Adv.

Why Not, Indeed!

"Why not open-air schools for all children?" asked the bulletin of the Chicago Municipal Tuberculosis sanitarium. "Why the stupid policy of waiting 'till the child gets sick before giving him the fresh air he needs?"

Some dogs are wiser than some men; they bury the bones left from their dinner.

YOU NEED NOT SUFFER WITH BACKACHE AND RHEUMATISM

For centuries GOLD MEDAL Haarlem Oil has been a standard household remedy for kidney, liver, bladder and stomach trouble, and all diseases connected with the urinary organs. The kidneys and bladder are the most important organs of the body. They are the filters, the purifiers of your blood. If the poisons which enter your system through the blood and stomach are not entirely thrown out by the kidneys and bladder you are doomed. Weariness, sleeplessness, nervousness, dizziness, backache, stomach trouble, headache, pain in loins, and lower abdomen, gall-stones, gravel, difficulty when urinating, cloudy and bloody urine, rheumatism, sciatica, lumbago, all warn you to look after your kidneys and bladder. GOLD MEDAL Haarlem Oil Capsules are what you need.

They are not a "patent medicine" nor a "new discovery." For 200 years they

have been a standard household remedy. They are the pure, original imported Haarlem Oil your great-grandmother used, and are perfectly harmless. The healing, soothing oil soaks into the cells and lining of the kidneys and through the bladder, driving out the poisonous germs. New life, fresh strength and health will come as you continue this treatment. When completely restored to your usual vigor, continue taking a capsule or two each day. They will keep you in condition and prevent a return of the disease.

Do not delay a minute. Delays are especially dangerous in kidney and bladder trouble. All reliable druggists sell GOLD MEDAL Haarlem Oil Capsules. They will refund the money if not as represented. In three sizes, sealed packages. Ask for the original imported GOLD MEDAL. Accept no substitutes.

Canada made me Prosperous

—that's what thousands of farmers say, who have gone from the U. S. to settle on homesteads or buy land in Western

Canada. Canada's invitation to every industrious worker to settle in Manitoba, Saskatchewan or Alberta is especially attractive. She wants farmers to make money and happy, prosperous homes for themselves by helping her raise immense wheat crops to feed the world.

You Can Get a Homestead of 160 Acres Free

or other lands at very low prices. Where you can buy good farm land at \$15 to \$30 per acre that will raise 20 to 45 bushels of \$2 wheat to the acre—it's easy to become prosperous. Canadian farmers also grow wonderful crops of Oats, Barley and Flax. Mixed Farming is fully as profitable an industry as grain raising. The excellent grass, full of nutrition, are the only food required either for beef or dairy purposes. Good schools and churches; markets convenient; climate excellent. ATTENTION! Sick Women

To do your duty during these trying times your health should be your first consideration. These two women tell how they found health.

Hellam, Pa.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles and a displacement. I felt all run down and was very weak. I had been treated by a physician without results, so decided to give Lydia E. Pinkham's Vegetable Compound a trial, and felt better right away. I am keeping house since last April and doing all my housework, where before I was unable to do any work. Lydia E. Pinkham's Vegetable Compound is certainly the best medicine a woman can take when in this condition. I give you permission to publish this letter."—Mrs. E. R. CRUMLING, R. No. 1, Hellam, Pa.

Lowell, Mich.—"I suffered from cramps and dragging down pains, was irregular and had female weakness and displacement. I began to take Lydia E. Pinkham's Vegetable Compound which gave me relief at once and restored my health. I should like to recommend Lydia E. Pinkham's remedies to all suffering women who are troubled in a similar way."—Mrs. ELISE HEIM, R. No. 4, Box 83, Lowell, Mich.
